SPECIALITIES · AEROSOLS & SPRAYS

Multi Lube with PTFE Aerosol.

Multi Lube is a high grade lubricant containing PTFE and an effective de-watering agent.

APPLICATION

- general applications
- wet conditions (bottling plants)
- salt water protection
- chain lubrication

NOT RECOMMENDED

- × **Any use outside the stated dilution or application instructions**
- × **Mixing with a product of a different inhibitor technology**

BENEFITS

- Formulated to a defined performance standard, not a lowest-cost recipe
- Protects the whole system - aluminium, copper, brass, solder and elastomers
- Consistent batch-to-batch quality from our own laboratory
- Available in pack sizes that suit workshop, fleet and bulk use

PACK SIZES

500ml aerosol in box of 12

HEALTH & SAFETY

Refer to SDS for proper handling and disposal. Please note that the SDS includes handling, health and disposal information which should be passed on to your employees, and to anyone else who comes in contact with our product. Additional advice can also be obtained from your local representative.

Note: Read and understand all precautions on container labels before using this product.
